## Joint Program Executive Office for Chemical and Biological Defense

### Chemical, Biological, Radiological, and Nuclear (CBRN) Defense Equipment Capabilities, Characteristics, and Acquisition Procedures

JACKS provides the warfighter and other customers with a centralized, authoritative, and comprehensive source of CBRN equipment information. This "face to the customer" contains an intuitive search capability and provides total asset visibility for fielded equipment. The user can access CBRN equipment specifications and standards, fact sheets, shelf life information, advisory messages, new equipment training, and contact information.

JACKS is web-based, easy to use, and accessible through any standard internet browser using either CAC authentication or an Army Knowledge Online (soon to be Defense Knowledge Online) user name and password.
